10	Straight Sided Beer	591 mL	20 oz.	42273	Beer	4

Glassware - Beer (Laser Etching)

Laser Etching

The bottoms of these glasses have been etched with a laser. Laser etching will improve the appearance of any carbonated beverage you're serving! It is particularly suitable for beers, ciders and carbonated soft drinks. This method of nucleation will never fade, mark, or wash off! It causes a constant central stream of bubbles to rise through the beverage.

The effervescence of the carbonated beverage is enhanced, and the head of the drink is maintained – encouraging your customer to order another round!

Item	Description	Capacity		Item #	Pattern	Case Pack (Dozens)
		Metric	Imperial			
1	Tulip Beer (Tempered)	591 mL	20 oz.	42747 LE	Beer - Laser Etching	4
